How It All Started...

The year was 1997. I just got my first desktop computer with a 486 dial up modem.

WHAT IS THAT YOU ASK?

You've it easy these days :-)

At this time of writing, I'm 41 years old. In 1997, I was 24 years old when I started exploring about the internet business.

I was the typical corporate worker then (that's me on the left many years ago).

Most people hasn't heard of the internet business back then, and the idea of "making money online" was far fetched to say the least.

I didn't start trying to make money online...

I started by trying to market my music online. I failed.

(Note: Recently I got the guts to put up some songs over at www.EwenChiaMusic.com.

Listen at your own peril 🤪 LOL)

So I failed at getting people interested in my songs online, but like most people I stumbled upon the whole business of making money on the internet.

I FELT HARD FOR IT.

Money was not enough back then, and coming from a low middle income family, I desired to have a better life. I wasn't good at many things, including school or making friends. I was a loner.

The thought of making money online and becoming rich one day with it was thus appealing. At that time, I just got out of school and into my first real 9-5 job. I just got married and started a family.

Things were tough with many bills to pay, and the salary I got from my job was NEVER enough. I didn't have the capital or intelligence to start a business, invest in real estate or do trading.

It became an unhealthy obsession for me to **MAKE MONEY ONLINE.**

So I started my next 5 years of non-stop work, effort and investment into this "new" business.

From **1997-2002**, I would be online **STRUGGLING** without making a cent. Nobody knew the years of sweat, tears and sleepless nights.

My life was falling apart in front of me.

No future, no friends, no money, no hope.

Nobody understood why I was always at the computer, least my wife.

Didn't help that I didn't understand what I was doing either.

I'll be at my computer every-single-day from 11pm - 2am.

This was after I got home from my day job and when everyone else was sleeping...

I'll be hard at work trying to make it online.

Confused, lost and having information overload. Plus what made it harder was I was never what one would call a "technical" person.

I never studied computers at school or liked to meddle with things technically, so it was not easy.

Good news is today, you hardly need any technical skills to start an internet business.

Getting 1 domain name back then took me days and cost me almost US\$150 for one year of registration fee!

Money I didn't have. So I borrowed from the banks. Easy way out. Not.

Well all the buying and investing ballooned into a \$16,000 or so credit card debt!

And I still haven't made a cent online after 5 years.

I was DESPERATE.

I fed on the words of Thomas Edison to motivate myself...

So on the fifth year in 2002, out of desperation, exasperation and frustration...

**I DECIDED I HAD TO BE SUCCESSFUL
AND FAILURE CANNOT BE AN OPTION!**

That was the turning point. I DECIDED I will make it.

I decided I WANTED it bad enough.

So I wrote down my goal on a piece of horizontal paper...

"I WILL Be A Multi-Millionaire Online!"

I didn't believe it. But I would die trying. I decided I will succeed.

I was 29 years old.

I made my first million online when I reached 34.

And the media came calling...

Since then, my internet businesses have generated multiple millions per year, consistently like clockwork.

Since 2006, I've gone around the world to teach the internet business...

"Make Millions Online - The Truth About Making Millions Online And Living A Life Of Freedom"

And helped thousands upon thousands of successful students in live training events to guide them on the secrets of the internet business...

I got to share the stage and rub shoulders with the best in the world...

Till date, this is still the most popular print book about the internet business.

I'm pretty proud of it. Mostly because it helped a lot of people learn about the internet business and opened up the industry.

All This Wouldn't Have Happened Without The Internet Business.

I used to make nothing but I'm making millions online now.

My DAILY income online regularly looks like this...

Sun	Oct	25	\$18,246.94	
Sat	Oct	24	\$15,895.82	
Fri	Oct	23	\$15,092.44	
Thu	Oct	22	\$22,155.12	

Most importantly...

I'm Living A Life Of REAL FREEDOM.

Freedom to do what I want, go where I want and to provide for my family...

Remember I started from scratch and WORKED HARDER than anyone else (maybe even yourself).

As I said, nobody knew the years of sweat, tears and sleepless nights.

I still work harder than most people today, even after making my millions.

You get what you put in.

Life is very different today because of one decision I took to start my internet business and a decision to become successful.

If you've not yet started with the internet business, it's never too late and NOW is a great time to start...

Everything is so much easier these days and you've coaches and mentors to help you (I didn't have any of that).

If you've started but still getting there, I trust what I'm going to share with you soon will help you reach your goal faster.

Remember these words...

Don't give up - yet

In the following pages, I'll give you my exact 4 "secrets" to internet success...

Make sure you read every-single-word.

You don't need a 1,000 page internet marketing encyclopedia, this little book is sufficient and will "train" you more than months of learning elsewhere.

Take heed and apply what I share and you'll prosper beyond your wildest dreams.

It's like having the power to **make money on demand anytime you want to.**

Lets continue...

Secret #1

The Right Mindset And Exactly How To Apply It To Your Business

Before you even begin your business, there's one thing that's even more important...

Contrary to popular belief, the MOST important asset in your quest to making real money online are not courses, tools or software...

It's what you already have - YOUR MIND or...

Your Mindset To Be Specific.

You have the ability to change your own life. It starts with knowing what you want and...

WANTING it bad enough.

If you want it bad enough like I was, you'll go out of your way and comfort zone to make it happen, no matter what it takes. That's the gift we have as humans.

Too many people today, especially beginners, expect to be spoon fed and have money handed to them without work.

They expect to have success HANDED to them on a silver platter.

If that doesn't happen, they get a refund. It's ridiculous if you think about it. The worse are the serial refunders. They will never get anywhere in business or life.

No matter how good the product, course or software is - you still need to work on it.

You still need to build YOUR own business.

Don't mean to rant but it makes me sick when people whine and complain about having to learn, having to take action and having to invest in their business like a domain, hosting, autoresponder etc. I mean...

It's all for you to build your own business, my goodness sake.

Look, the **single most powerful factor** to transform yourself into a success (and to be financially free for that matter) is your own sense of responsibility.

Meaning...

You MUST Learn To Be Responsible For Your Own Success!

Seriously. I don't know how else to put it.

Fact is, no one else can make you successful but yourself.

They can help as much as they can, but when you reach the water, you must drink it.

My own turning point came about (after 5 years) when I finally realized the above truth.

My turning point came when I STOPPED blaming courses, programs and other people for my own failure.

My millions came when I took it upon myself to make them.

I can tell you for sure that the journey was **TOUGH** but worth it.

So please just do whatever it takes and stop giving yourself excuses. I repeat...

NO MORE EXCUSES!

Sorry to "shout" but I feel very strongly about this...

Fact is, I feel very strongly about YOUR success.

So here's what you need to do NOW:

- **Decide on an internet business model from secret #2**
- **Write down your goals and what you want to achieve**

- ***Invest in whatever you need to become successful***
- ***Focus on your goals every day***
- ***Do what it takes to reach your goals every day***

Here's a challenge for you...

Go ahead and WRITE THIS DOWN on a piece of paper now...

"I WILL Make A Million Dollars Online!"

Then start by making your first \$1, first \$100, first \$10,000 and first \$100,000.

When you reach your goal, let me know and I'll be the first to congratulate you!

You'll get there, trust me. But only if you want to.

Here's why...

All achievements begin with a goal in mind - written down.

This sets things in motion.

Or as Napoleon Hill taught in "Think and Grow Rich":

“You are the master of your destiny. You can influence, direct and control your own environment. You can make your life what you want it to be.”

So if your goal is to make huge income online, live the internet lifestyle and retire young, then you're reading the right book.

I'll even give you an accelerated way to achieve your goal towards the end of this book so read on...

Set your mind to succeed and DREAM about yourself as the successful person you've become.

Dream about the end result.

Dream about the money you've made like it's real.

Imagine how it will feel when your family and friends say you are...

I bet that felt good :-)

Here's the best news...it CAN be what you want it to be.

Whether the outcome is good or bad, it's up to you...

If It Is To Be, It Is UP TO ME.

- *Be responsible and serious about your own success!*
- *Know what you want*
- *Have the goal and end result written down*
- *Focus and work towards it EVERY DAY*

I've just given you the secret to the right mindset, no more guessing.

Always remember (and write it down)...

**"I, and only I, have the power to decide
how my life will turn out."**

[It's all in your mind](#), not in products, courses or even seminars.

Obviously these will help you to get where you want to be much easier and faster...
But first you must first know where the heck you want to go.

Have a fixed destination in mind first - and decide to reach there. It's as simple as that.

I sincerely hope what I've just shared here will help give you some direction.

What I've given you is a quick lesson in "mindset" that took me years to discover...not just what it is, but how to APPLY it.

So apply it!

Secret #2

Multiple Streams Of Income And The 3 Best Business Models

The old saying "**never put all your eggs in one basket**" couldn't be more true when it comes to running a profitable business online.

For example, marketers who depended solely on Google for their income had their earnings wiped out overnight when their sites disappeared from Google rankings because of some updates.

The scary thing is - it happens all the time and to anyone. No matter how "favored" you are by the search engines.

Imagine if you're the marketer, losing the business and income overnight that you took years to build.

Not Smart.

This is why I don't encourage putting your entire business into the hands of some sites which you can't control.

You'll be at their mercy.

This is also true for Facebook marketers...

Always have REAL control over your business and earnings.

Always spread your eggs.

Always find NEW income streams.

There're really no 2 ways about it.

To be honest, I would never had made my millions had I only focused on ONE stream of income, meaning...

I diversify my business and have multiple streams of income.

I hope it make sense to you - the importance of diversification.

It's obviously good to focus, but it doesn't apply to making money...

As they say, "the more the merrier".

Now having said that, we also do not want to be overwhelmed with doing too many things at once...and end up doing all of them badly.

It's all about your own management.

That is why, right from the start, I decided to focus my efforts on only **3 key income streams...**

Income Stream #1 – Affiliate Marketing

Affiliate marketing as a business model is one of the best ways to get started with making money online.

It's essentially you taking a portion of the commissions when you make a sale of someone else's product.

This commission can range from anything from 3% straight up to 75% in some cases. Or it can be a fixed commission like \$50 per sale.

There are affiliate products in almost any niche out there. Some of the bestselling niches include:

"make money online", "health and fitness", "beauty", "dating", "hobbies" and "consumer products".

There are 4 main types of affiliate programs you can promote:

1. **Per pay sale** (for example: Clickbank, Amazon)
2. **Pay per click** (for example: Google AdSense)
3. **Pay per lead** (for example: Peerfly)
4. **Multi-tier** (for example: 2 tier)

I've promoted all 4 types of affiliate programs but make the most money from pay per sale and multi-tier programs.

Here's an example of an affiliate offer leading to a webinar:

The image shows a promotional banner for a webinar. The main headline is "FREE ONLINE TRAINING REVEALS: 'How To Generate a \$100,000 Per Year Income Online (...even If You Have ZERO Experience!)'". Below the headline is a yellow button that says "Claim My Spot Now »". Underneath the button is a progress bar for "Free Online Training" with a timer showing 0 days, 00 hours, 00 minutes, and 00 seconds. To the right of the timer, it says "4 Nov, 5 Nov or 6 Nov" with a calendar icon and the time "11:00 AM - 2:00 PM - 6:00 PM - 8:00 PM". Below the banner, there is a section titled "Here's Just A Taste Of What You'll Learn..." with four bullet points: 1. You'll discover how to make \$300+ per day (\$100k a year) or more by just giving stuff away to people online. (I get it. Selling stuff is hard. But giving stuff away is easy. Let me show you how to make six figures a year doing it.) 2. You'll learn The PROVEN secret to making money online in 24-48 hours even if you have no prior experience. (And I'll show you how to set all of this up, in 10 minutes or less, using nothing but 100% FREE tools.) 3. You'll see how to explode your online income up to 395% using a simple system that's proven to work time and time again. 4. You'll discover the 'tried & tested' method to generating automated wealth using the internet. (Discover how to use simple tools to automate 90-95% of the hard 'work' for you, so you can focus on making more money...) Below the bullet points is a photo of the presenter, Richard Legg, and a short bio: "Presenter: Richard Legg. Join SucceedYourself.com founder, Richard Legg, as he reveals his proven system for generating a six-figure-per-year income online, even if you have zero experience selling online."

One of the coolest things about affiliate marketing is what's called AFFILIATE CONTESTS. I love them.

I started with affiliate marketing back in 2002 and over the years of doing it, I've consistently won MANY affiliate prizes from contests...

Laptops, ipads, iphones, cameras, remote control helicopters, toys, vouchers and even cold hard cash!

I became so good at promoting affiliate products, doing huge volumes fast and winning contests that I was referred to as the...

"World's #1 Super Affiliate"

Here's an old photo of my first ever affiliate prize:

By the way, if you read the above, it says "You sure know how to make an entrance!"

The reason was because I joined the program for less than a week and went to the top of their leaderboard immediately, competing against 10,000+ other affiliates.

So as you can tell, I DO know my stuff.

And affiliate marketing is definitely very profitable.

I really like it because you can start profiting right from the start without creating your own products, delivering anything or doing customer service.

If you're interested in making huge affiliate commissions and become a "super affiliate" fast, then my [Super Affiliate Millionaire](#) program may just be the right fit for you...

Now, as much as I enjoy affiliate marketing, there's another stream of income that's making me a lot of money (millions) and that is...

Income Stream #2 – Selling My Own Products

I love creating products. It's a very creative process that acts like an outlet of expression and freedom (similar to music).

More importantly, I'm able to create products to help people solve specific problems.

Remember this golden rule and you'll make a lot of money...

Product = Solution to solve people's problem

Always create products that people WANT TO BUY.

Never create products for your own vanity.

Develop a "customer-centric" approach to your business and always pretend you're the customer yourself.

See it from their viewpoint, not your own.

When you have your own products, you can also get other affiliates to promote the product...meaning, you have leverage.

Traffic will be driven by the affiliates. They only get paid when they sell.

It's a win-win partnership.

I've created MANY products, and I'm still creating them in many niches.

For example, a top personal development product of mine is called [Success Switch](#) (funny name I know but there's a reason for it).

Another example of a niche product I developed is [Guitar Success](#), a joint venture with an established guitar teacher.

Many of my products are in the "internet marketing" and "make money online" niches due to my experience and expertise in them.

For example, some of my bestselling products include...

While I've been very hardworking and had created many products (because I've created a proven formula to do it now)...

My first ever product was a traffic product called "Turbo Website Traffic" which I struggled with. It took me MONTHS.

When I finally put it on Clickbank in 2002, it sold ok...

So that was my first ever product.

You just have to DO IT. I didn't know a thing when I started too.

Over the years, apart from the above examples which I've shown, I've also...

- Created SecretAffiliateWeapon.com which became one of the main training sites where most of the "gurus" got their start with. Over **100,000 copies** of the product had been sold.
- Launched an online coaching program that generated sales of a staggering **US\$1.497 MILLION in 36 hours.**
- Created a product which became one of the most popular internet marketing products ever. The ebook generated sales of over **US\$4 MILLION dollars.**
- Launched a membership site that got **5,000 paid members in 48 hours.**

While I don't only use Clickbank to sell products, I've become somewhat of a Clickbank expert, both as an affiliate and vendor.

I've also got products to the top of Clickbank marketplace like...

Selling products on Clickbank can be very profitable. Check out these daily income...

Getting 5 figure paychecks every 2 weeks is definitely NICE...

And you get cool gifts like these too!

I've also been in **Clickbank's highest level "Platinum" program** for the **top 10%** vendors for a few years.

Here's how an email from them to join the program looks like:

I'm Showing You All These Not To Brag But To Inspire And Motivate YOU...

Because you can do it too. You just have to DO IT - like I did.

Now, if you prefer a business model that's much easier than creating your own products and even more profitable than affiliate marketing...then read on...

Income Stream #3 – Product Licensing

Product licensing is the answer if you want a quicker and easier way to your first \$10,000, first \$100,000 and yes, first \$1,000,000.

I discovered the licensing business model later but wished I had learned about it much earlier, simply because I would have made many more millions.

The model is basically where you "license" someone else's products, services or programs to use "as your own" while making the bulk of the profits.

When you license a product:

- *You don't have to spend years getting the expertise and experience*
- *You don't have to spend effort or money in creating the product*
- *You can ride on the brand name and credibility of the product creator*

Most importantly, you get a proven "instant business-in-a-box".

This is much better than resale rights, creating everything yourself and yes, even affiliate marketing.

In the offline world, many people know it as "franchising". It's the same model.

If you get a good licensor, he or she may even have a system set up where you can profit from all other backend products the company produces, without doing any additional work yourself.

This is important because we know the bulk of the money is made in the "backend".

Thus if you can license an entire backend paying you thousands of dollars a sale...

It can be the fastest and easiest way to your goal of making that million dollars online.

A great example of a licensing program is [MOBE](#).

MOBE is a marketing education and events program that you can get a license to.

I did 2 years of research and got to know the creator, Matt Lloyd, before getting a license. Here's a photo of Matt and myself...

I joined MOBE because the products are top-quality and from research I also discovered that **ordinary everyday people are making a lot of money from it.**

Some have even become MILLIONAIRES. These are regular people and not "gurus":

Beginners are making easy \$30,000+ a month, \$70,000+ a month, \$200,000+ a month and more. It's crazy but true.

MOBE has a very unique licensing system because not only are you fully trained on all things internet marketing, but you also get a personal COACH to help you...

Plus you get to profit from their entire backend without having to sell anything or do any of the work yourself.

It's REALLY ideal...especially for people who are lazy or short of time but want to earn the big money automatically.

This is because with their licensing, you can make unlimited income of **\$1,000, \$3,000 and \$5,000 day in and out...without picking up the phone or leaving your house.**

And it get results...

Just read what this licensee has to say:

THEIR sales people will do the selling for you, close the sales and deposit the money you make directly to your bank account every week.

Read that again. It's amazing isn't it?

That's why I wished I had discovered it much earlier! (But it's not too late).

If you want to join me in MOBE, I'm going to give you some help (to the tune of \$8,988.00 in real bonuses)...

However this is highly limited and it opens and closes all the time.

Secret #3

Building Your Email List And Why It's The Most Important Asset

To successfully start making money online, and to have consistent results year in and out, you need to have a **MARKETING SYSTEM** in place.

This is true regardless of the internet business model you choose to build your business around...

Whether it's with affiliate marketing, selling your own products or licensing.

You must have a system to market and sell whatever you're selling.

And because you want a life of freedom...

This marketing system should also run itself **automatically** and work for you even when you're not at your computer or you stop working!

It should also provide you with massive leverage and increase your income exponentially.

So with this in mind, what's the best option for the marketing system?

Here's the answer...

A Marketing System That Builds You An Email List!

Of all the marketing strategies out, list building and email marketing is by far the NUMBER ONE strategy that gives you the best leverage.

Having your own email list lets you send emails and make money on demand - you're building a proper foundation for your fortune online.

I didn't start to make huge income until I built my own list.

Here's why you need to use email marketing and build an email list:

- ***Your own database of subscribers is a business asset***
- *It's long-term and builds your business on leverage*
- ***It allows you to "dominate" your niche***
- *Instant traffic - email your subscribers and send them to any website*
- ***Send an email about a product and make instant money***
- *You can prewrite and save email messages to be sent on interval days using an autoresponder*
- ***You can put your entire business to run on complete autopilot!***
- *When you get your visitors contact information, you won't lose them*
- ***Email is the most intimate form of communication online***
- *People are used to reading emails*
- ***Almost everyone has an email address online!***

Even with the social media, email marketing has not declined but has grown even stronger and bigger.

I mean if you think about it...how do social networks like Facebook or Twitter contact you? By emails!

Email marketing has also been proven to be the most platform for selling stuff online (Amazon is great at that)...

Email Is Crushing Twitter, Facebook for Selling Stuff Online

So having shown you the importance and effectiveness of email marketing, here's the point I'm trying to make...

You should start building your own list of subscribers from day 1 - no matter what you're marketing online.

How the heck do you do that?

You need the following system set up...

- ***A squeeze page to collect email addresses***
- ***An offer to promote and profit from***
- ***Follow up email messages***
- ***Autoresponder service***
- ***Targeted traffic sent to squeeze page***

Lets look at each component of the system...

Squeeze page

A squeeze page is a simple, even ugly, web page designed for ONE objective:

Capturing your visitors' contact information like their email addresses.

It typically has just a "headline", a call to action and a form.

The headline promises information on a benefit your niche wants, and the call to action tells them what to do to get that information.

Here's how one of my high-converting squeeze pages look like:

The diagram shows a squeeze page layout with the following elements:

- Headline:** "Discover The Secrets Of How You Can Easily Get \$1,000 A Day Online On COMPLETE AUTOPILOT...Without Selling Anything!"
- Image:** A one thousand dollar bill.
- Call to action:** "ENTER YOUR BEST EMAIL FOR THE SECRETS"
- Form:** A text input field with the placeholder "Fill In Your BEST Email Here..." and a red "ENTER NOW" button.
- Branding:** A small photo of Ewen Chia, his name "Ewen Chia", and his credentials: "#1 International Bestselling Author of 'How I Made My First Million On The Internet and How 'You Can Too!'"

Additional text on the page includes: "We respect your email privacy", "NOTE: Use Your Real Email As You Need To Confirm To Get Access.", and a copyright notice: "(C) Copyright SecretInternetBusiness.com - All Rights Reserved Worldwide."

I don't encourage giving a freebie on a squeeze page to get email addresses, simply because it builds you a list of freebie seekers who will not buy anything from you.

Unfortunately, 99% of internet marketers are taught to give away a freebie by other products or coaches.

WRONG MOVE.

Instead, I prefer using curiosity and a promised benefit to get the email addresses like my example above.

Using this method, people subscribe because they WANT the information.

Your squeeze page should also have images and your photo and name for branding purposes. People who know you will open and read your emails more.

Fact is, people will also buy from those they know and trust.

Again, 99% of internet marketers don't use images and brand yourself cause they are taught wrongly.

It makes me want to tear my hair out (and I've got very little hair already!)

Offer

When subscribers join your list, you should recommend them an offer to solve their problems **IMMEDIATELY**.

This allows you to help them and also allows you to make money instantly.

This is especially important if you're using paid traffic to promote your squeeze page (see below). You would essentially want to profit from list building.

With the profits, you can reinvest in more paid traffic and build your list bigger and more aggressively.

Now obviously you can use either an affiliate product, your own product or a licensed product as your offer.

However if you want more leverage and earn HIGHER income...

The best option is a licensing program like [MOBE](#) which lets you make **thousands of dollars per sale** instead of the usual \$10-\$50 per sale.

I think it makes perfect sense...

With higher earnings means you can reinvest more money into building your list, which leads to a lifestyle of freedom!

Follow Up Email Messages

Apart from exposing your offer to the subscribers who first optin from your squeeze page, it's smart thinking to also prewrite a series of follow up email messages to promote that same offer.

This is because repetition and reminders ALWAYS make you more money.

There's a saying "the gold is in the follow up".

You can prewrite and save an email campaign in your autoresponder so that follow up emails are sent to your subscribers AUTOMATICALLY at intervals you decide.

When you do this, your marketing is done for you on autopilot by the autoresponder and you can be on vacation and still make money, cool!

Autoresponder

An autoresponder is one of the most important components in the marketing system.

This is because it manages, collects and stores your database for you.

You'll also be able to login to the autoresponder and send broadcasts to your database, apart from the follow up emails you had set up.

The autoresponder effectively does all your email marketing for you.

You should never email your subscribers from your ISP because it will shut you down.

An autoresponder also ensures that your emails are delivered to your subscribers' inboxes, which is the purpose.

There are MANY autoresponder services on the internet, with the most popular ones being [Aweber](#) and [Get Response](#).

"Make Millions Online - The Truth About Making Millions Online And Living A Life Of Freedom"

Simpler, Faster Email Marketing

I highly suggest that you invest in a PROFESSIONAL autoresponder like Aweber or Get Response, instead of using free services or scripts.

If you're serious about your business, you can't afford to put your most important business asset at risk by using free services or some scripts.

The first time I built my list in 2002, I spent 6 months and got over 10,000 subscribers.

However because I used a free autoresponder, I lost all these subscribers when the service went down one day.

Painful lesson. Learn from my mistake!

Targeted Traffic

Traffic in internet marketing terms means real people or visitors going to your website.

What we want is **targeted** traffic, or traffic that is interested in what you're offering.

There are many ways to get targeted traffic like from forums, facebook posts, articles (still work very well if done correctly) and press releases.

These are "free" methods which usually need more volume and take more time.

For building a list, the fastest and most effective way is to simply BUY TRAFFIC.

ALL the "gurus" and successful marketers buy traffic to their websites.

Paid methods include solo ads, pay per click, pay per view, Facebook ads and more.

IMPORTANT: You can lose money if you don't know your return on investment (ROI). The safest way is to start by buying small and testing.

It's also VERY important that your offer converts.

This is because you want to make immediate money from building your list. In this way, then will you be able to reinvest and grow your business.

I use proven offers that convert like [Autopilot Profits](#) or [MOBE](#).

Obviously before you even buy or drive traffic, your marketing system MUST be set up and all ready to go!

So this comprises the entire list building marketing system you should be creating...

- *A squeeze page to collect email addresses*
- *An offer to promote and profit from*
- *Follow up email messages*
- *Autoresponder service*
- *Targeted traffic sent to squeeze page*

This really works!

*I've recently built a new **30,000+ subscriber list** and made over **\$100,000 in 30 days** using this **ONE** simple marketing system.*

How would you like me to create your entire marketing system for you absolutely FREE (\$1,497.00 value)...

...Including all the designing, set up and even write email messages for you to profit from for life?

Secret #4

Getting A Coach, A Mentor And Someone You Can Account To!

One of the **MOST** critical factors (but also most ignored and overlooked) for your success, online or off, is to get a coach, a mentor and someone you can account to.

All high-earning internet marketers have them - that's because we all need guidance and no one can become successful on their own. No one is an island...

Looks pretty lonely there, doesn't it?

Now, you don't necessary need to meet your coach or mentor in a real face-to-face setting, **it can also be virtual with the internet these days.**

Your coach and mentor is the one who:

- *Teaches, guides and helps you*
- *Reviews and analyze your business*

- *Provides you with a clear action plan*
- *Make sure you do what you're supposed to do*
- *Kicks your butt if necessary!*

The need for a coach is especially important in the starting stage when you're still new and inexperienced.

However, marketers of all levels can benefit from having coaches.

Sometimes you can have many coaches as in the case of a "mastermind", where a group gathers together to share ideas, review and tear apart each other's business.

Sounds really fun :-)

Unfortunately while a coach is critical to your success, it can be **VERY expensive**, especially if you're looking for an authority in your niche with a track record.

Expect to invest anything in the range of a few hundred dollars to a few thousand dollars AN HOUR.

Sometimes, it can set you back by 5 figures a month, seriously. However this is an investment in your business because your income can often multiply ten folds from a good coach or mentor who does their job well.

I don't give personal coaching anymore, but when I did a few years ago, my fees were about \$2,000 an hour. Yes, it's expensive. But I get results.

As they say, "You get what you pay for".

Having said that, sometimes your coach can simply be a friend or partner in your business.

Both (or a group) of you can be each other's coach.

Another way to get a coach for the internet business is to join ["My Top Tier Business"](#) which is part of MOBE.

This is because you get videos, training and a personal coach with the program, and it's only a one-time \$49.

I'm serious. [Go join it if you're serious too](#)

Now, I want to also point out something else...

It's important you have someone to account and answer to apart from yourself.

The problem is we often find it's OK to let ourselves down, so if you can account to someone else, then you'll probably work harder to achieve your goals.

Ironic I know, but that's us.

I find that the best people to account to is either your mastermind partners or your spouse and family.

Tell them that you'll achieve "this and this". Put the responsibility on yourself.

You'll be afraid of failing after telling others your plans so you WILL thus be motivated to meet your goals...

It really works!

Try it and see.

That's the ONLY way to find out...

As with all things.

The Beginning...

This is supposed to be the ending, the conclusion of the book.

But I don't want to call it that because in reality, it's really...

The beginning of your internet business journey.

I believe I've shared a lot with you here.

I believe you can be successful.

I believe you can make millions online...if you want to.

I believe you can live the internet lifestyle.

I believe you can have a life of freedom.

I believe in you.

Aim high and reach for the sky.

Now it's your turn to believe in yourself...

Look back to page 19 (Secret #1) and set your goal...

Here's a challenge for you...

Go ahead and WRITE THIS DOWN on a piece of paper now...

"I WILL Make A Million Dollars Online!"

Then start by making your first \$1, first \$100, first \$10,000 and first \$100,000.

I'll see you soon,

So it's not an "overnight" thing.

After studying their business and products, I know that they are the real deal and it will work for you. *With their training and product licensing business model, anyone can succeed with them.* As I've said...

Ordinary people are making extraordinary and life-changing income with MOBE.

We're talking about \$30,000+ a month, \$70,000+ a month, \$200,000+ a month and so on...even for beginners.

As I mentioned before, not only is MOBE a quality business model that really works, it is also very profitable.

That's IMPORTANT if you want to make big money online.

You can make UNLIMITED \$1,000, \$3,000, even \$5,000 commissions automatically, without ever picking up the phone or leaving your house...

MOBE also gives you step-by-step training to make an easy \$1,000 a day or \$30,000 a month, paid direct into YOUR bank account...
